Title: MAGNETIC RECORDING MEDIUM AND MAGNETIC
RECORDING/REPRODUCING APPARATUSREPLY TO RESTRICTION REQUIREMENTCommissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In reply to the Office Action dated June 9, 2005, Applicants hereby provisionally elect Group I, claims 1-30 and 32, drawn to a magnetic recording medium and a magnetic recording and reproducing apparatus. Applicants further elect Species Number 30, drawn to a parallel orientation of recording layers of the configuration M4/M2/M1. These elections are made with traverse.

It is respectfully submitted that the criteria for a proper Restriction Requirement between patentably distinct inventions set forth in MPEP §803 has not been satisfied. In particular, it is respectfully submitted that the search and examination of the entire application can be made without a serious burden. MPEP §803 states: "If the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions."

It is respectfully noted that the class definitions for class 428, subclass 694TM, explicitly direct a search in class 360. Accordingly, it is respectfully submitted that the search for Group I necessarily includes the search for Group II. It is also respectfully noted that the requirement for restriction would result in the withdrawal of only one of the 32 pending claims. As the search for the 31 claims in Group I would necessarily include and

require the search for the one claim in Group II, it is respectfully submitted that the search and examination of the entire application can be made without serious burden.

In addition, Applicants respectfully submit that the search and examination of Species Number 30 would necessarily include the search and examination of at least Species 31-33, 35, 36, 38, 39, 48, 49, 53 and 55, as the same interlayers, M4/M2/M1, is common to all of these species. It is also respectfully noted that claims 7, 17 and 28 recite the common interlayers M4/M2/M1. Remaining dependent claims 8-16, 18-27 and 29 depend from claims 7, 17 and 28, respectfully. Therefore, it is respectfully submitted that the search and examination of the listed species may be performed without a serious burden.

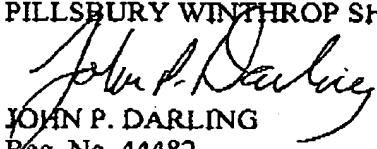

It is also respectfully submitted that upon the allowance of a generic claim, Applicants will be entitled to rejoinder of the remaining species claims. As the Office Action has identified claims 1-6, 27 and 30 as generic, and as claims 7, 17, and 28, at least, read on the elected species, it is respectfully submitted that the search and examination of these species may be performed without a serious burden.

It is also respectfully submitted that the Restriction Requirement should be withdrawn in order to prevent duplicative examination by the Patent Office and unnecessary expense to Applicants.

Reconsideration and withdrawal of the Restriction Requirement are respectfully requested.

Respectfully submitted,

PILLSBURY WINTHROP SHAW PITTMAN LLP
